PROFESSIONAL SUMMARY

Motivated and creative **Computer Science Engineering (AI & ML) student** with a strong interest in **Front-End Engineering, UI/UX design, and Artificial Intelligence technologies**. Skilled in building responsive, interactive, and user-friendly web applications using modern web technologies. Passionate about creating visually appealing digital experiences while continuously improving programming, problem-solving, and AI-driven development skills.

EDUCATION

Bachelor of Technology (B.Tech) – Computer Science Engineering (Artificial Intelligence & Machine Learning)

College Name: Malla Reddy Deemed to be University

Year: 2025-2029

Relevant Coursework:

- Artificial Intelligence
 - Machine Learning
 - Data Structures & Algorithms
 - Web Development
 - Database Management Systems
 - Computer Networks
 - Operating Systems
-

TECHNICAL SKILLS

Frontend Development

- HTML5
- CSS3
- JavaScript (ES6+)

- Responsive Web Design
- DOM Manipulation
- UI/UX Design Principles
- Animations & Transitions
- React.js (*if learning/using*)

Programming Languages

- Python
- Java
- C / C++

AI & ML

- Machine Learning Fundamentals
- Artificial Intelligence Concepts
- Data Analysis Basics
- Model Training Concepts

Tools & Technologies

- Git & GitHub
- VS Code
- Figma
- Chrome DevTools

Database

- MySQL
- MongoDB (*if applicable*)

PROJECTS

Personal Portfolio Website

Technologies: HTML, CSS, JavaScript

- Designed and developed a responsive personal portfolio website.
- Added smooth scrolling, animations, and interactive UI components.
- Showcased skills, projects, resume, and contact information.

Interactive Image Gallery

Technologies: HTML, CSS, JavaScript

- Built an image gallery with modern UI design.
 - Implemented navigation, lightbox view, hover effects, and transitions.
 - Optimized layout for different screen sizes.
-

Music Player Web Application

Technologies: HTML, CSS, JavaScript

- Created a browser-based music player interface.
 - Added play, pause, next, previous, volume control, and progress tracking features.
-

AI/ML Projects

AI-Based Prediction System

- Developed a machine learning model for prediction tasks.
 - Performed data preprocessing and model evaluation.
-

INTERNSHIP / EXPERIENCE

Front-End Development Intern

Company Name: Code Alpha

Duration: 30 days

Responsibilities:

- Developed responsive web pages using HTML, CSS, and JavaScript.
 - Improved UI components and user experience.
 - Implemented interactive features and animations.
 - Collaborated on web development tasks.
-

CERTIFICATIONS

- Front-End Web Development Certification
 - Python Programming Certification
 - Artificial Intelligence / Machine Learning Certification
 - Add your certifications
-

SOFT SKILLS

- Problem Solving
- Creativity
- Communication Skills
- Team Collaboration
- Adaptability
- Quick Learning Ability

CAREER OBJECTIVE

To become a skilled **Front-End Engineer and AI-driven developer** by creating innovative, responsive, and intelligent applications that combine modern web technologies with artificial intelligence.

DECLARATION

I hereby declare that the information provided above is true and accurate to the best of my knowledge.
